Video Interstitial: 360 Wrapper

360 Video Wrapper is a full-screen interstitial with an embedded 360 video player. Video is streamed automatically and resolves to a replay prompt. In portrait the video plays along side artwork, in landscape the video plays in full screen displaying an endcard upon completion. Videos longer than 30 seconds will prompt the user to continue watching the full video after 30 seconds. CLOSE button appears after 7.5 seconds of the experience.

Portrait

Ad Dimensions	Image Dimensions		File Size		
	Including video	Lo-res	High-res	Initial Load	Max Load
320 x 568		320 x 367	640 x 734	150 KB	500 KB
Close Button					

Must be located in the top right 50x50 pixels

Landscape

Ad Dimensions	Image Dimensions		File Size		
	Lo-res	High-res	Initial Load	Max Load	
568 x 320		568 x 320	1136 x 640	150 KB	500 KB
Close Button					

Must be located in the top right 50x50 pixels

Raw Assets Delivery

File Format

- Layered PSDs for each design orientation
- Landscape creative is strongly recommended

360 Video

- Length: 30 seconds recommended, can accept longer video (after the first 30 seconds play automatically, user has the choice to continue watching the full movie)
- Format: MP4 or MOV
- Encoding: H.264 encoding
- Aspect Ratio: 1:2
- Bit rate: 5 MB
- Frame rate: 30fps preferred
- Audio: AAC

Provide URLs for each link

Availability

Devices

- iPhone, Android

Placements

- In-App

Metrics

- Ad impressions, clicks, rich media engagements
- Video impressions
- Video Quartiles (25%, 50%, 75%, 100%)
- Multiple tracking pixels supported
- 3rd party tracking accepted (metrics listed above) for all site-served units via an approved vendor

3rd Party Served

360 Video Wrapper units are site served only

Appendix

Ad Dimensions vs. Image Dimensions

Ad Dimensions are the number of pixels in the ad placement. Image Dimensions are the number of pixels in the image used in the ad placement. For hi-resolution graphics, the image dimensions are 2x the ad dimensions, so there are more pixels in the same ad space. This creates a crisper, clearer looking ad.

Creative Positioning

Creatives are always centered within the ad placement; therefore, in landscape orientation the large screen extension is on the left and right. See our "Design Guides" for further information.

Appendix

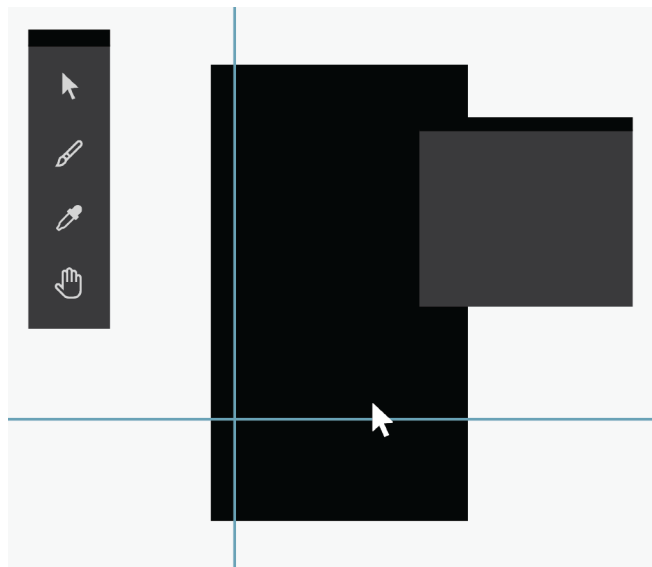

DAA Ad Marker

The DAA (Digital Advertising Alliance) sets the standards for self-regulation of digital privacy and is enforcing industry-wide Mobile Privacy standards ensuring that the Ad-Choices logo and opt-out capability will be a part of creatives tied to audience campaigns using cross-app data.

By default, the Ad Marker appears in the top left 15 x 15 pixel corner of any banner, expanded banner, interstitial or video wrapper, however it may appear in any corner except the top right upon request. Video Plus products always display the Ad Marker in the bottom right 15 x 15 pixel corner.

Upon a tap, the 15 x 15 pixel icon expands to reveal information about Millennial Media and interest-based advertising and gives the user the option to opt out of behavioral targeting.

Design Guidelines

Design guidelines in the form of PSDs are available for download for your convenience at:
